Death rates by state fitted by month 1981–2009 against t2m days_decreasing_by_5 : Men 35

Death rates by state fitted by month 1981–2009 against t2m days_decreasing_by_5 : Men 35

Death rates by state fitted by month 1981–2009 against t2m days_decreasing_by_5 : Men 35

The figure is a line plot titled "Tottori". The x-axis is labeled "t2m days_decreasing_by_5" and has major ticks at 0, 1, 2, and 3. The y-axis is unlabeled. The plot shows multiple data series represented by lines of different colors (red, blue, purple) and individual data points at each x-axis value. The data points are clustered vertically at each x-axis value, indicating a distribution of values. The lines connect the data points for each series across the x-axis values, showing trends over time or across the categories.
