Death rates by state fitted by month 1982–2013 against t2m days_decreasing_by_5 : female 5

The figure is a scatter plot titled "Wyoming". The x-axis is labeled "t2m days_decreasing_by_5" and ranges from 0 to 6. The y-axis is unlabeled. The plot displays data points and connecting lines for three categories: red, blue, and purple. The data points are clustered at x-axis values of 0, 1, 2, 3, 4, 5, and 6. The lines connect the data points for each category, showing the change in the y-value as the x-value increases. The red lines generally show a slight increase or stay flat. The blue lines show a more varied trend, with some increasing and some decreasing. The purple lines show a clear upward trend, starting from a low y-value at x=0 and increasing significantly by x=5.
