

Death rates by state fitted by month 1982–2013 against t2m days_above_30 : male 65

Death rates by state fitted by month 1982–2013 against t2m days_above_30 : male 65

The scatter plot, titled "Arkansas", displays the frequency of "t2m days_above_30" for different locations. The x-axis, labeled "t2m days_above_30", ranges from 0 to 15. The y-axis represents a categorical variable with 10 levels. The data points are colored by location, with a dense cluster at x=0 and a few outliers at higher x-values.
