Death rates by state fitted by month 1981–2009 against t2m number_of_min_3_day_above_25_upwaves : Women 15

The figure is a scatter plot titled "Kagoshima". The x-axis is labeled "t2m number_of_min_3_day_above_25_upwaves" and ranges from 0 to 4. The y-axis is unlabeled but has tick marks from 0 to 4. The plot shows two sets of data points: blue and red. Blue points are primarily located at x=0, with a few at x=1. Red points are distributed across all x values from 0 to 4. Lines connect points of the same color, indicating trends or individual trajectories. A blue line starts at a high y-value at x=0 and decreases to a low y-value at x=1. Red lines show more varied trends, with some starting high at x=0 and decreasing, and others starting low and increasing slightly.
