The figure is a scatter plot titled "Iowa". The x-axis is labeled "t2m sd" and has major tick marks at 2.5, 5.0, 7.5, and 10.0. The y-axis is unlabeled. The plot contains a large number of data points, which are colored in three distinct groups: red, blue, and purple. There are also several regression lines plotted, each corresponding to one of the data point colors. The red lines generally show a slight negative or near-zero slope, while the blue and purple lines show a positive slope. The data points are widely scattered across the plot area, with some clusters and many outliers.
