The figure is a scatter plot titled "New Hampshire". The x-axis is labeled "t2m sd" and ranges from approximately 1.5 to 7.5, with major ticks at 2, 4, and 6. The y-axis is unlabeled. The plot contains numerous data points colored in red, blue, and purple. Several regression lines are drawn through the data, colored to match the points they represent. The red lines generally show a positive correlation between t2m sd and the y-axis variable. The blue and purple lines show more varied trends, with some being nearly horizontal and others showing slight positive or negative slopes.
