Death rates by state fitted by month 1982–2013 against t2m days_changing_by_5 : male 5

The figure is a line plot titled "Ohio". The x-axis is labeled "t2m days_changing_by_5" and has major tick marks at 0, 5, and 10. The y-axis is unlabeled. The plot contains a large number of data points, which are colored in a gradient from red to blue. Several smoothed lines are overlaid on the data points, colored in red, blue, and purple. The red lines generally show a downward trend, while the blue and purple lines show more varied trends, with some peaking around x=5 and others remaining relatively flat.
