The figure is a scatter plot titled "Shimane". The x-axis is labeled "t2m number_of_min_3_day_above_25_upwaves" and ranges from 0 to 4. The y-axis is unlabeled. The plot contains a large number of data points, many of which are clustered at x=0. The points are colored in various shades including red, blue, green, orange, and purple. Several lines are fitted to the data, primarily in dark red and red, showing a general downward trend as the x-value increases. The lines represent different statistical models or fits to the data.
