Death rates by state fitted by month 1981–2009 against t2m days_changing_by_5 : Women 55

The plot, titled "Fukushima", displays the change in t2m days_changing_by_5 over a 5-day period. The x-axis is labeled "t2m days_changing_by_5" and ranges from 0 to 5. The y-axis represents the frequency of observations, with a grid extending from -10 to 10. Three data series are shown: blue, red, and grey. Each series consists of points at days 0, 1, 2, and 3, connected by lines of the same color. The blue series shows a general downward trend from day 0 to day 3, with a slight increase at day 2. The red series shows a general upward trend from day 0 to day 3. The grey series remains relatively flat, with a slight increase at day 5. The plot includes a light grey grid and a dark grey border.
