Death rates by state fitted by month 1981–2009 against t2m days_increasing_by_5 : Men 25

The figure is a line plot titled "Oita". The x-axis is labeled "t2m days_increasing_by_5" and has major ticks at 0, 1, 2, and 3. The y-axis is unlabeled. The plot shows a large number of data points, primarily clustered at x=0 and x=1. Lines connect points between x=0 and x=1, and some points are connected to x=2 and x=3. The data series are color-coded: red, blue, and purple. The red series shows a general downward trend from x=0 to x=1. The blue series shows a general upward trend from x=0 to x=1. The purple series shows a general downward trend from x=0 to x=1. There are also some points at x=2 and x=3, which are connected to points at x=1.
